**Bring the entire family for
the Free Admission event**

- Koi Displays & Judging
- Pond & Koi Vendors
- Informational Seminars
- Arts & Craft vendors
- Bonsai display
- Raffles & Auction

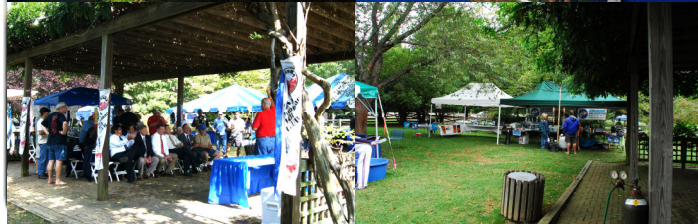

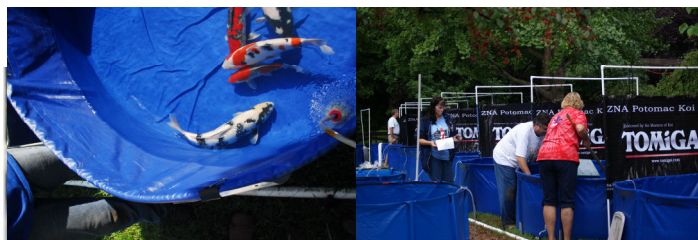

The gardens are located off of Beulah Road, between Route 7 and Route 123, south of the Dulles Access Road. To reach Meadowlark Botanical Gardens from the Beltway, take Route 7 toward Tysons Corner. Drive 4.5 miles west on Route 7, turn left onto Beulah Road and drive 2.5 miles to the gardens entrance on the right.

ZNA Potomac is an association of koi and pond keepers affiliated with Zen Nippon Arinkai and AKCA. The club serves Virginia, Maryland, Delaware, and the District of Columbia. The members come from all areas and bring together a wealth of knowledge and experience.

The members range from seasoned pond keepers to new hobbyists. Ponds range from preformed hard plastic with a few hundred gallons to expansive custom designed ponds with thousands of gallons. All hobbyists are welcome and everyone learns. Please check out our website and we look forward to meeting you at our koi show!

The colorful koi fish, called nishikigoi in Japanese, is a specially bred variety of carp. In the 19th century, Japanese farmers began breeding decorative carp, selecting brightly colored specimens to ornament gardens in luxurious fish pools. Koi can be found all over the world in decorative gardens and in a dizzying variety of colors, shapes, and size; growing up to three feet in length.
